

# Vendor Punch-Out

## Optional Add-On

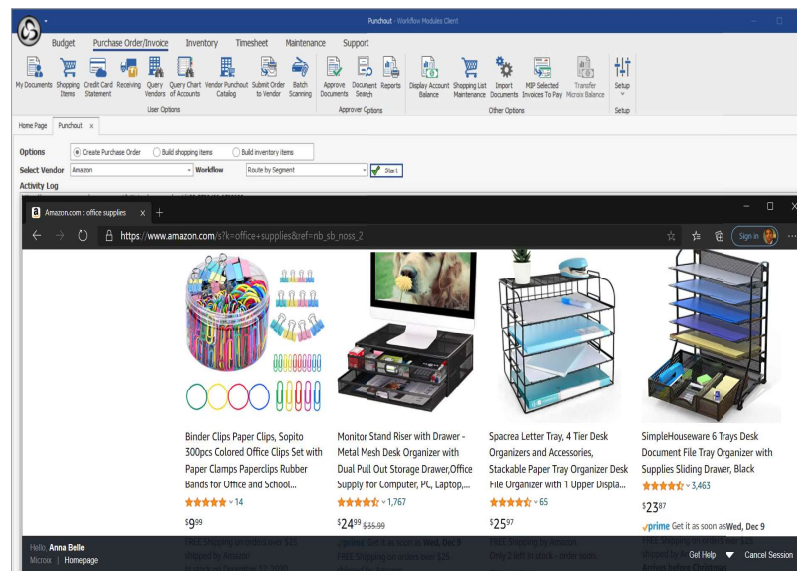

Shop directly from a vendor's website, while simultaneously creating the PO inside of Microix!

The **Microix Vendor Punchout Catalog** allows staff to shop directly from a vendor's e-commerce website with a push of a button. This innovative method will simplify order processing and lower procurement cost.

*Microix is capable of sending CXML for POs only. EDI is not supported.*

## Key Features:

- Microix has made it even easier to submit your order by streamlining the purchasing process.
- Allows you access to the vendor's current availability and real-time pricing
- Ensures higher efficiency by providing your purchasing department the freedom to consolidate all your supplier's catalogs into one central location.
- One Purchase Order can generate multiple orders
- Provides a reliable and highly effective method to improve your organization's speed, accuracy, and management of the purchasing process.
